### **Chinas Economy What Everyone Needs**

China's Economy: What Everyone Needs to Know® is a concise introduction to the most astonishing economic growth story of the last three decades. In the 1980s China was an impoverished backwater, struggling to escape the political turmoil and economic mismanagement of the Mao era.

China's economy produced \$25.3 trillion in 2018, according to the International Monetary Fund. That's based on purchasing power parity which takes into account the effect of exchange rates. That makes it the best method for comparing gross domestic product by country.
