ECC - AGUIRRE RIDDLE

The classic key to identifying native trees of the Pacific Coast, updated to reflect changes in the names of trees since publication of the first edition. Identifies native trees, and some widely introduced or naturalized species, of the Pacific Coast region, from British Columbia to Baja California. In this edition, Latin names of trees that grow in California conform to the University of California's 1993 Jepson Manual, and more recent name changes.

Pacific Coast Tree Finder - AdventureKEEN
