Toyota Production System (TPS) - Integrated Socio ...

TOYOTA PRODUCTION SYSTEM BASIC HANDBOOK

A production system based on the philosophy of achieving the complete elimination of all waste in pursuit of the most efficient methods. Toyota Motor Corporation's vehicle production system is a way of making things that is sometimes referred to as a "lean manufacturing system," or a "Just-in-Time (JIT) system," and has come to be well known and studied worldwide.

The Toyota Production System is an integrated socio-technical system developed by Toyota (automotive manufacturer) to efficiently organize manufacturing and logistics, including the interaction with suppliers and customers, to minimize cost and waste. Nampachi Hayashi claims that TPS should have been called "Toyota Process Development System." ." Most uses of the word "Lean" are ...

The Toyota Production System (TPS) is an integrated socio-technical system, developed by Toyota, that comprises its management philosophy and practices. The TPS organizes manufacturing and logistics for the automobile manufacturer, including interaction with suppliers and customers. The system is a major precursor of the more generic "lean manufacturing."

The Toyota production system (TPS), or lean production, has been associated with many benefits for manufacturing firms that implement the system. However, to implement the TPS successfully, it is necessary to integrate the so-called "hard side" of the system (that is, the technical aspects of material handling) with the "soft side" of the program (that is, the aspects associated with ...
