“Potato tubers contain no less than 80 per cent water; the rule of thumb is that the

potato crop needs an inch of water per week to produce a good quality crop.” Whenever potato plants are subjected to small moisture deficiencies, Banks says the growth rate is reduced, and the moisture stress on the plant will affect both the quality and yield of tubers.

Water management. Potatoes have a high water requirement – roughly 1in/week during bulking. Thus, for high yields irrigation is usually beneficial. Water management is essential to minimize tuber problems. Maintaining a moist soil in the ridge at tuber initiation can minimize common scab development.

Potatoes need about 1 - 2 inches (2.5 - 5 cm) of water per week. If Mother Nature is reluctant to supply the necessary water, then some type of irrigation system is go-

ing to be required. When irrigating the crop, a few thorough night time soakings with a soak hose throughout the growing season is better than more frequent watering that just wet the surface.

Potato plants should be watered deeply, especially if it gets very hot and dry. The soil should be moist 8 to 10 inches underground. Make sure not to overwater the potatoes for 2 weeks after planting. Watering every 4 to 5 days is usually enough during the first weeks after planting. Water the plants every day or two, 6 to 8 weeks after planting.

The economic and environmental costs associated with irrigating 440ha of potatoes at AHDB's Strategic Potato (Spot) Farm North prompted a rethink on the best way to maintain product quality in ...

This unit can be studied as part of the AFT-P's 'Potato Production and Management' course. Areas covered will include: Introduction: Aims and objectives; Role of irrigation in UK production; "Pathway to efficiency"; Irrigation Benchmarking. Irrigation water requirements: Evapotranspiration; Estimation of ET; Effective rainfall; Irrigation need.

UK potato growers can take advantage of grants of £1 million from McDonalds and McCain, to boost soil quality and optimise water management..
